Subject: Randy Lord

Miguel:

I had an opportunity to catch up w/ Randy Lord of BSGI on a Michigan matter this morning. He informed me he's in NorCal today to hopefully meet up with you for vendor qualification. His outfit was our subcontractor for the Michigan build; aerial, underground and node installs. I also understand they performed extensive micro trenching and other underground on the San Diego – Cricket build. We had an excellent relationship w/ his team in Michigan and they were instrumental in a successful build under very difficult circumstances.

Let me know if you have any specific questions re; BSGI.

Thanks

Chris Brown
